25-27

HOW TO NOMINATE SOMEONE

Not just in your organisation. In the economy. In the world.

And you know someone who can help.

The future economy, enterprise and world will not build itself.

It will be built by leaders who care about more than financial return. Who feel the urgency. Who inspire through their values, not just their authority.

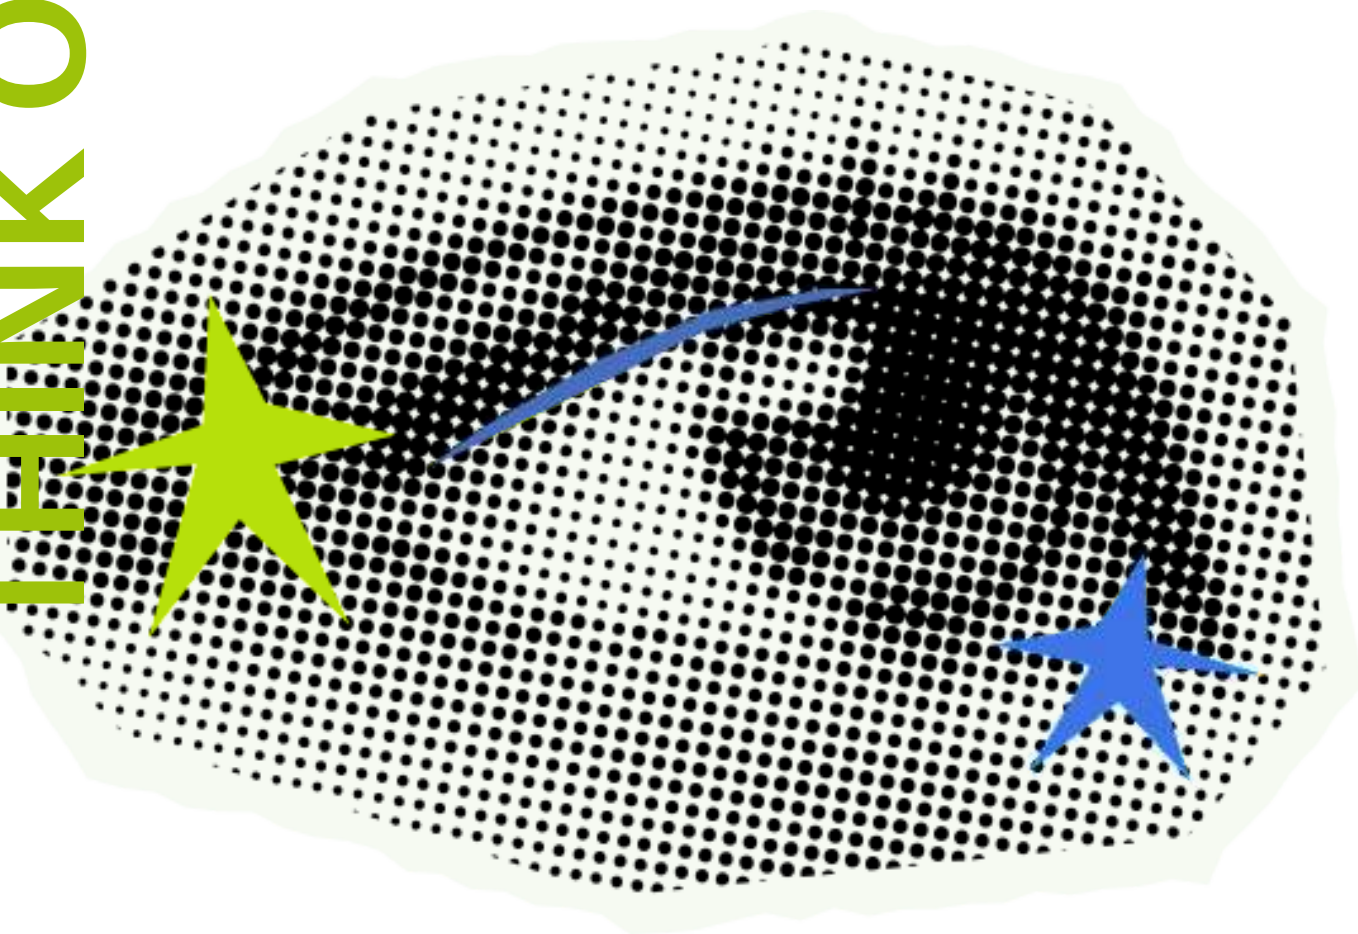

You know one. Maybe more than one.

THINK OF SOMEONE

Not someone who is just good at their job.
Someone good for the world around them.
Someone whose leadership you trust, not because
of their title, but because of who they are.

That person belongs here.

RESET exists for **exactly that person**

Who collaborates with values and empathy.

Who inspires

**Who is aching to do more and just needs the space,
the tools, and the people to make it happen.**

Defining the Core: What **RESET** Stands For

Regeneration

Rebuilding rather than just sustaining. Designing strategies that actively replenish natural, social, and economic systems.

Entrepreneurship

Driving active, creative agency. Empowering leaders to translate systemic insights into tangible, thriving ventures.

Systems

Mapping complexity. Moving beyond isolated symptoms to understand the interconnected dynamics of our global economy.

Ethics

Refusing easy compromises. Introducing deep psychological, philosophical, and moral inquiry into critical executive decision-making.

Trust

Rebuilding the relational glue. Fostering psychological safety, peer accountability, and transparent alliances to unlock systemic, collective influence.

MORE THAN JUST A RECOMMENDATION

*The ripples go further than you can
Imagine*

Their team gains a leader who listens differently, who creates space for others to think bigger and feel that their work truly matters.

The organisation gains someone who returns with clarity, courage, and a concrete plan for change. Not just a manager. An inspiring leader.

The sector gains a voice that asks better questions, makes braver decisions, and changes the conversations happening around them.

The next generation gains a mentor and champion who has done the inner work and knows how to help others do theirs.

Whom to nominate?

1 Leaders with a voice inside them

They feel the growing gap between the system they operate in and the leader they want to be. They have not found the right space to act on it yet, but the conviction is there. You can see it.

2 People who want to act, not just think

They are done with analysis and good intentions. They want to lead change in a meaningful, grounded way, and they are looking for the guidance, the tools, and the community to make it real.

3 Builders of a different future

They look at the organisation they work in, the sector they operate in, the world they live in, and they know it can do better. That belief is not a frustration. It is a fuel. They are already thinking about what they would change if they could.

4 Seekers of depth and connection

They are not looking for another certificate or a networking event. They want a genuine transformation, a shift in how they think, lead, and show up in the world. And they are ready to do the work that requires.

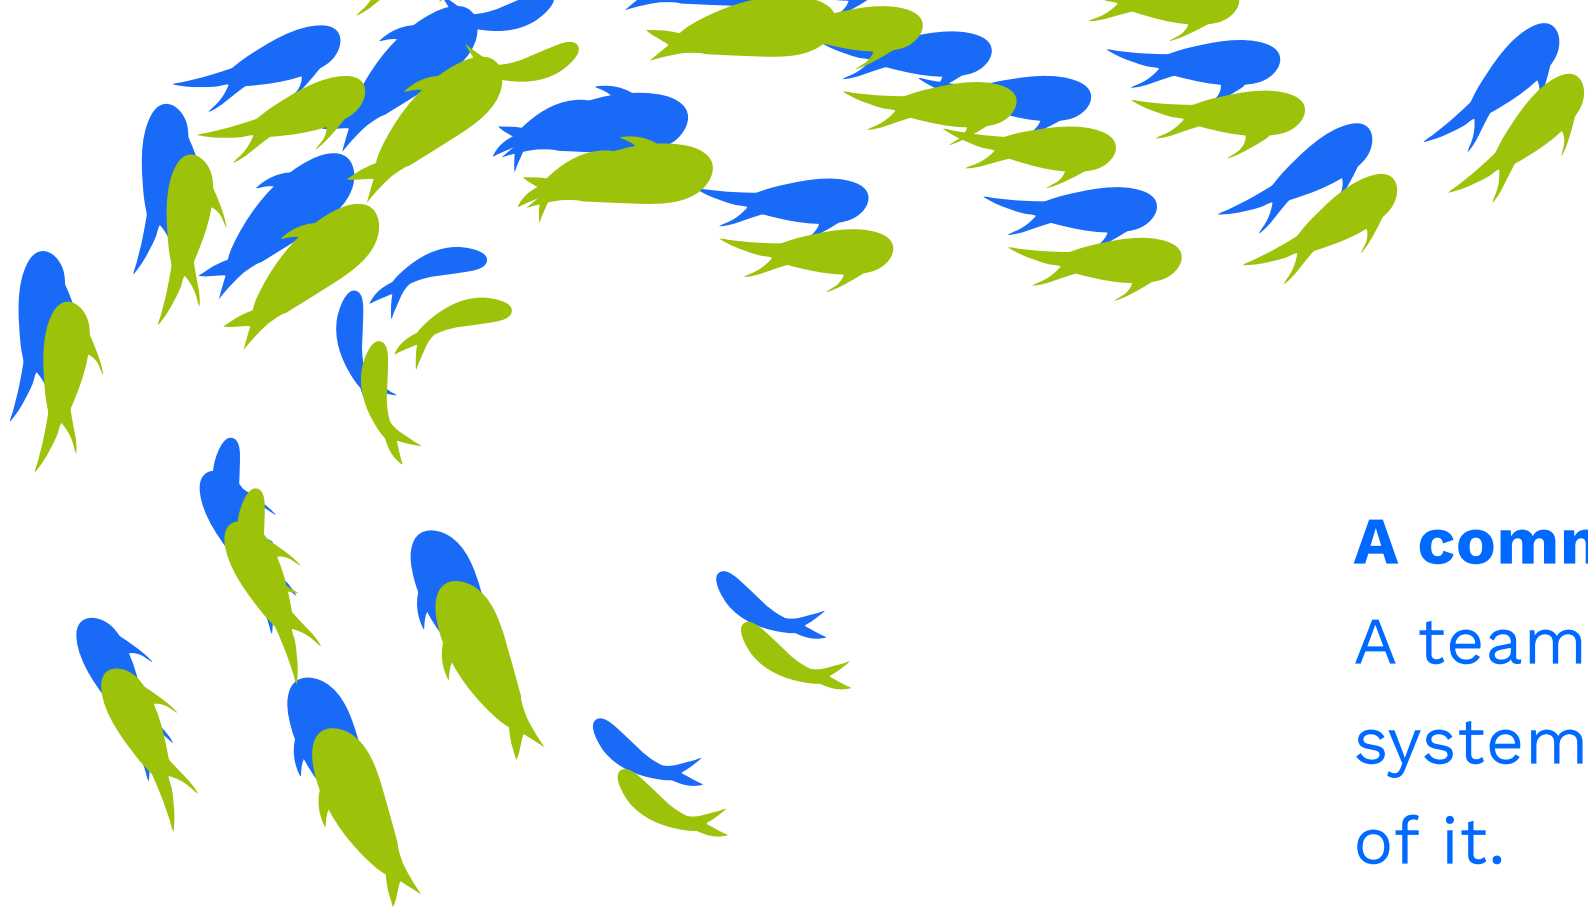

They are courageous

They are in a decision-making position

They have at least a Bachelor's degree

They are at a point of reflection

They are the next generation of experienced leaders

SEND A TEAM

Build a movement
Multiply and impact

A common language

A team that stands together, understands complexity, ethics, and systems thinking in the same way. And can move faster because of it.

A shared commitment

They have made their pledge to each other and to the organisation. Accountability does not need to be managed; it is already there.

A powerful catalyst for change

Not a working group. Not a task force. A group of leaders who have done the inner work, built the resilience, and developed the courage to lead real transformation, together, from the inside.

What your organisation gets back

Motivation,
commitment and
loyalty

A natural leader, a
catalyst and
driver of change

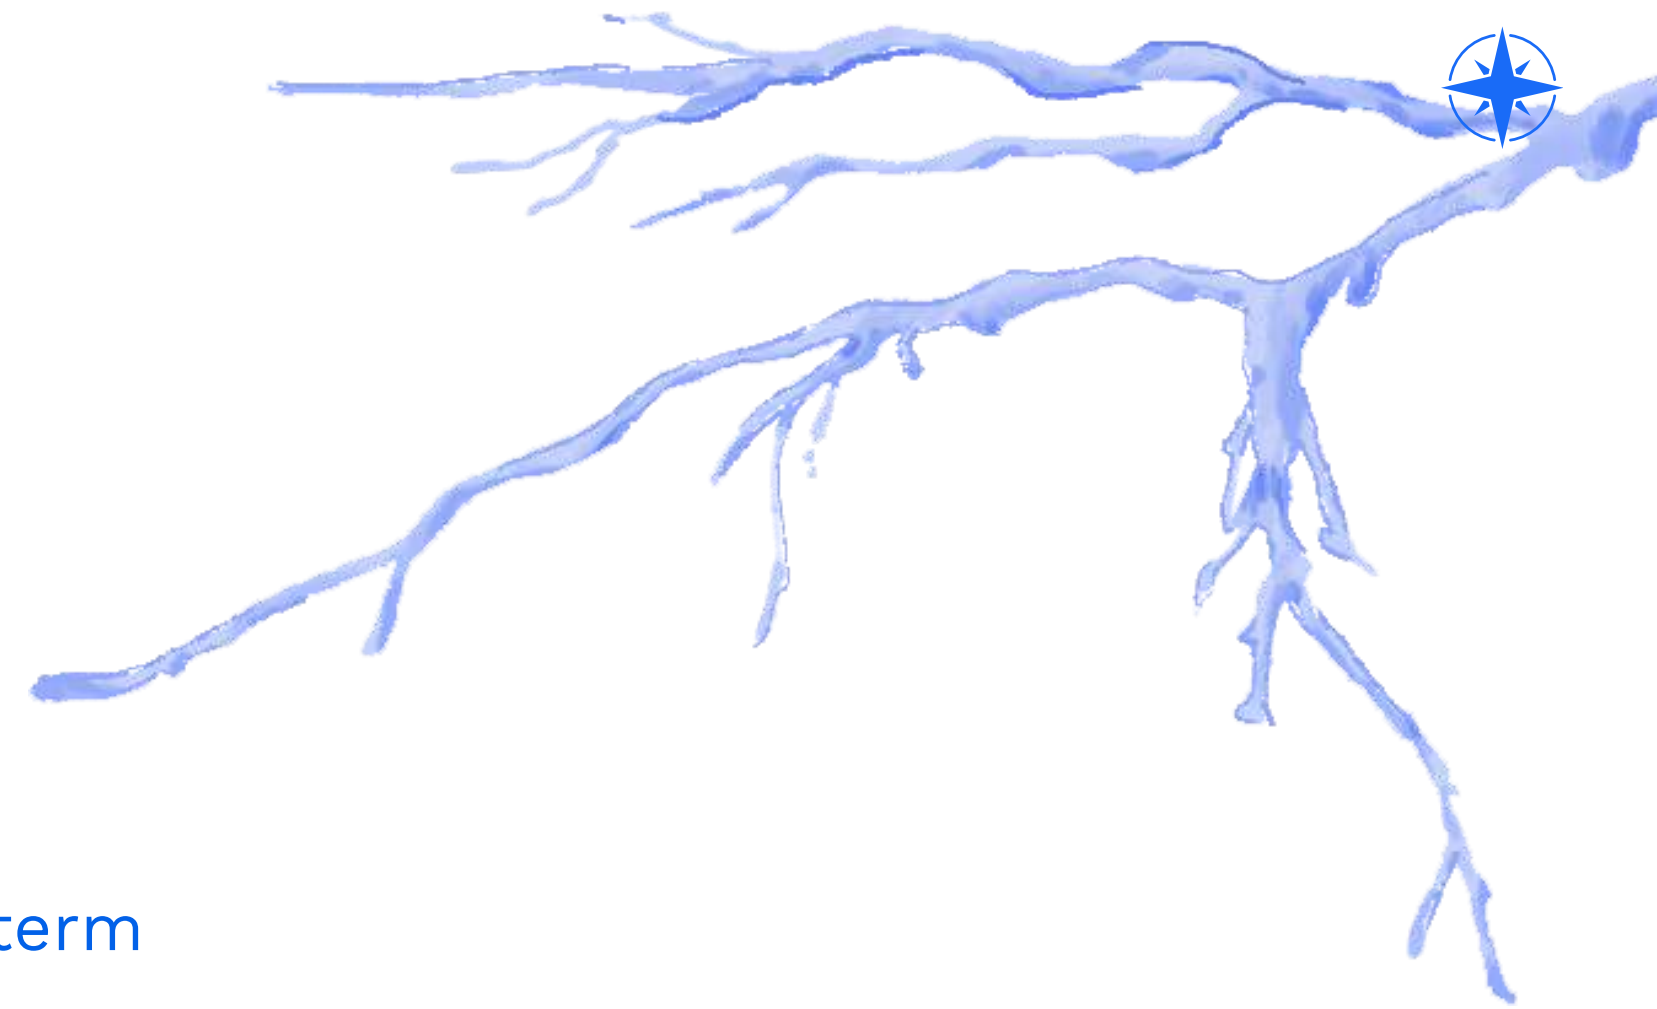

Living proof that
the organization
walks the talk

Leaders capable
of turning insights
into action

What your organisation **PAYS** **FORWARD**

A concrete, visible pledge to future generations:

1. Building solutions for the planet, not just for the short term
2. Choosing courage and integrity, refusing to take the easy way out
3. Leading with depth and authenticity, anchoring decisions in values and empathy
4. Standing accountable, far beyond the bottom line
5. Shaping a different economy, collaborating to fix broken systems, not just symptoms
6. Nurturing collective resilience, staying steady in the face of complex change
7. Inspiring, mentoring, and enabling the generations to come

How it works

A 7-MONTH HYBRID JOURNEY

The journey is articulated around 3 in-person, immersive gatherings: five days of deep work, personal exploration, real encounters and shared experiences.

Each month, the cohort dives into one theme through two 2- to 3-hour online sessions, designed to fit around your work life.

Personalized mentoring and peer coaching accompany participants throughout the program to help turn reflection and insight into lasting personal transformation.

Closing & Graduation
Paris
Mon 15- Sat 20

In-person: Presence Gatherings

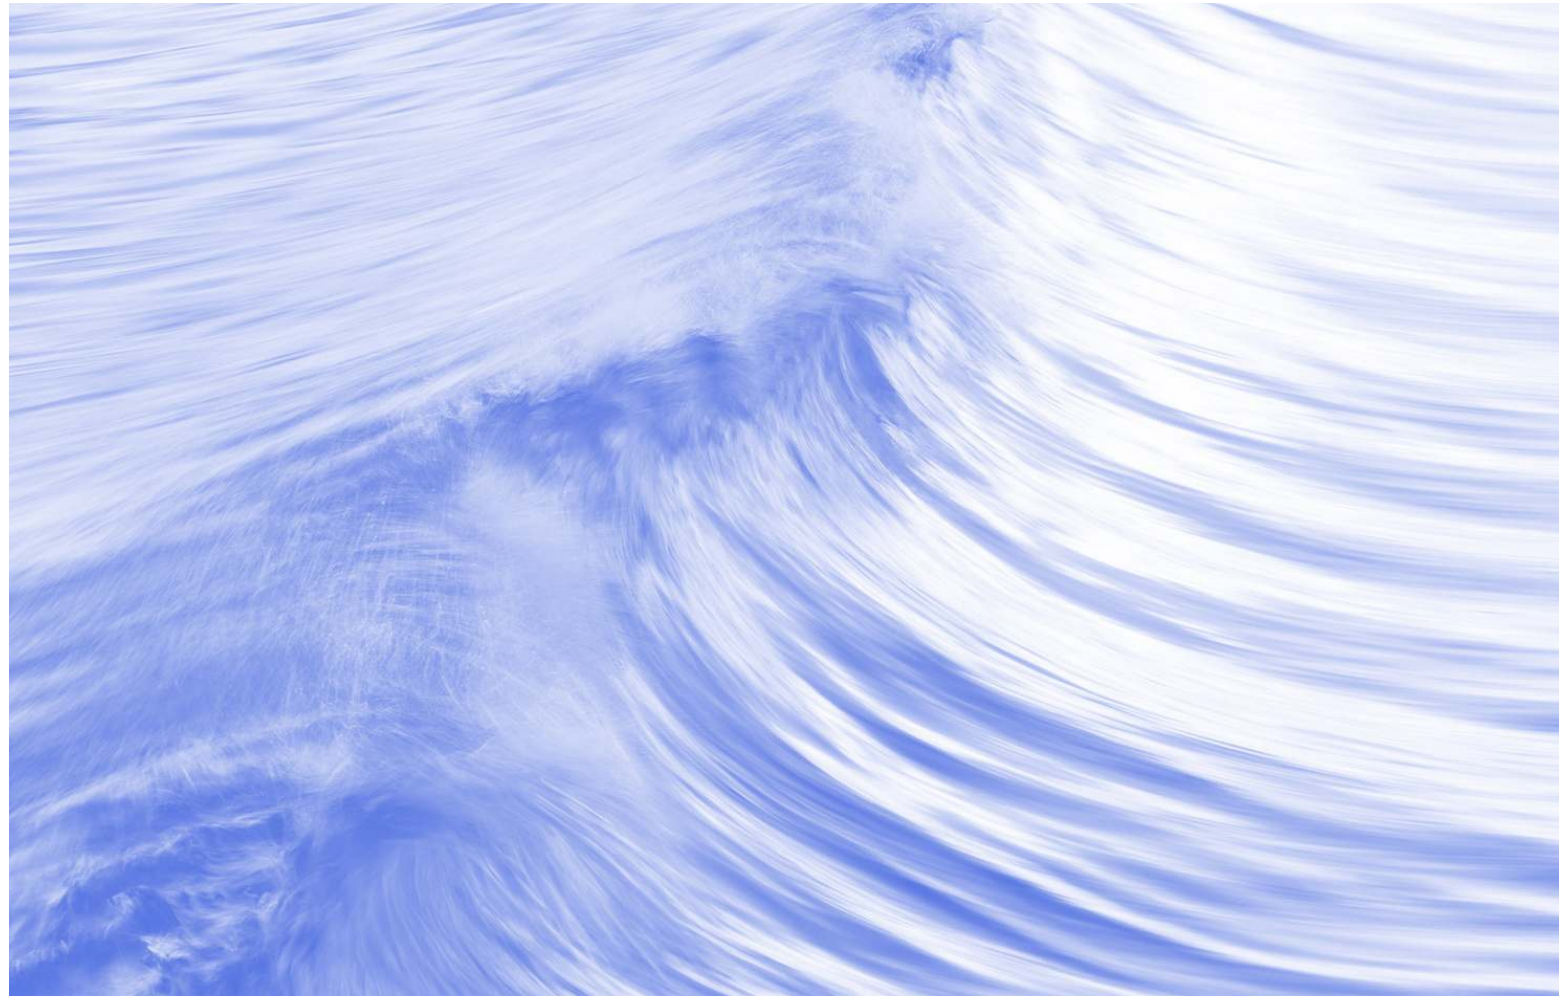

Online sessions on Tuesdays & Thursdays at 17:00

01.

SETTING THE STAGE

Paris | 23 - 30 APRIL

- Introductions & community building
- Brutal honesty, the state of the world
- Beginning the personal leadership journey
- Encounters with inspiring leaders, local communities & businesses who are rewriting the rules
- Peer groups & mentoring
- ChangeNow conference (3 days)

02.

CLOSING & FELLOWSHIP

Paris | 11 - 20 NOVEMBER

- Connecting to nature & local communities
- Encounters with leaders driving change: in business, civil society & beyond
- Pledge to action & fellowship
- Graduation & next steps

THEMATIC SESSIONS GOING DEEPER

01

NATURAL SYSTEMS

Understanding our relationship with the natural world, and what it means to lead within planetary boundaries rather than against them.

04

FINANCE & FINANCIAL SYSTEMS

Questioning who creates value, who captures it, and how money can be redirected toward a different kind of future.

02

TECHNOLOGY

Exploring how technology is reshaping power, work, and human connection, and where leaders must draw the line

05

TRADE & EXCHANGE

Looking beyond supply chains and markets to understand the human, ecological, and political cost of how we trade.

03

LEADERSHIP & GOVERNANCE

Examining how institutions, organisations, and individuals lead in a world where trust is fracturing and old models are failing.

06

REGULATION & GOVERNMENT

Understanding the role of policy and public power in shaping the systems we live in, and where citizens and leaders can intervene.

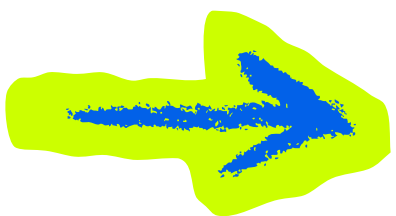

WHY RESET AND NOT ANOTHER PROGRAM?

We don't teach you about problems

We don't teach about problems. We ask participants to sit with them. Most programs give frameworks. We ask participants to first understand, feel, and let the problem change how they think.

We use multiple lenses — not one

Business, political, equality, psychology, ethics, ecology, economics... Because real change requires more than one way of seeing.

You will learn from people, not just experts

Inspiring professionals leading with integrity, indigenous communities, local change-makers, people whose way of seeing the world will challenge everything participants thought they knew.

You will be mentored — during and after

Every participant is guided throughout the program and supported beyond it, because the pledge they make at the end is just the beginning.

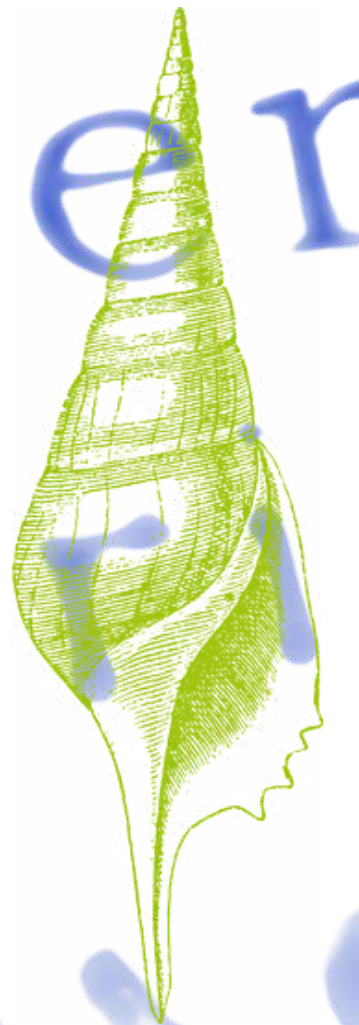

Pay it forward

We ask participants to pay it forward. This is not a program they complete. The 7-month phase is the formal learning and introspective program.

After this, participants remain active in a shared community where their commitments continue to be developed and supported. There is no endpoint, only an ongoing evolution of the impact their leadership can have.

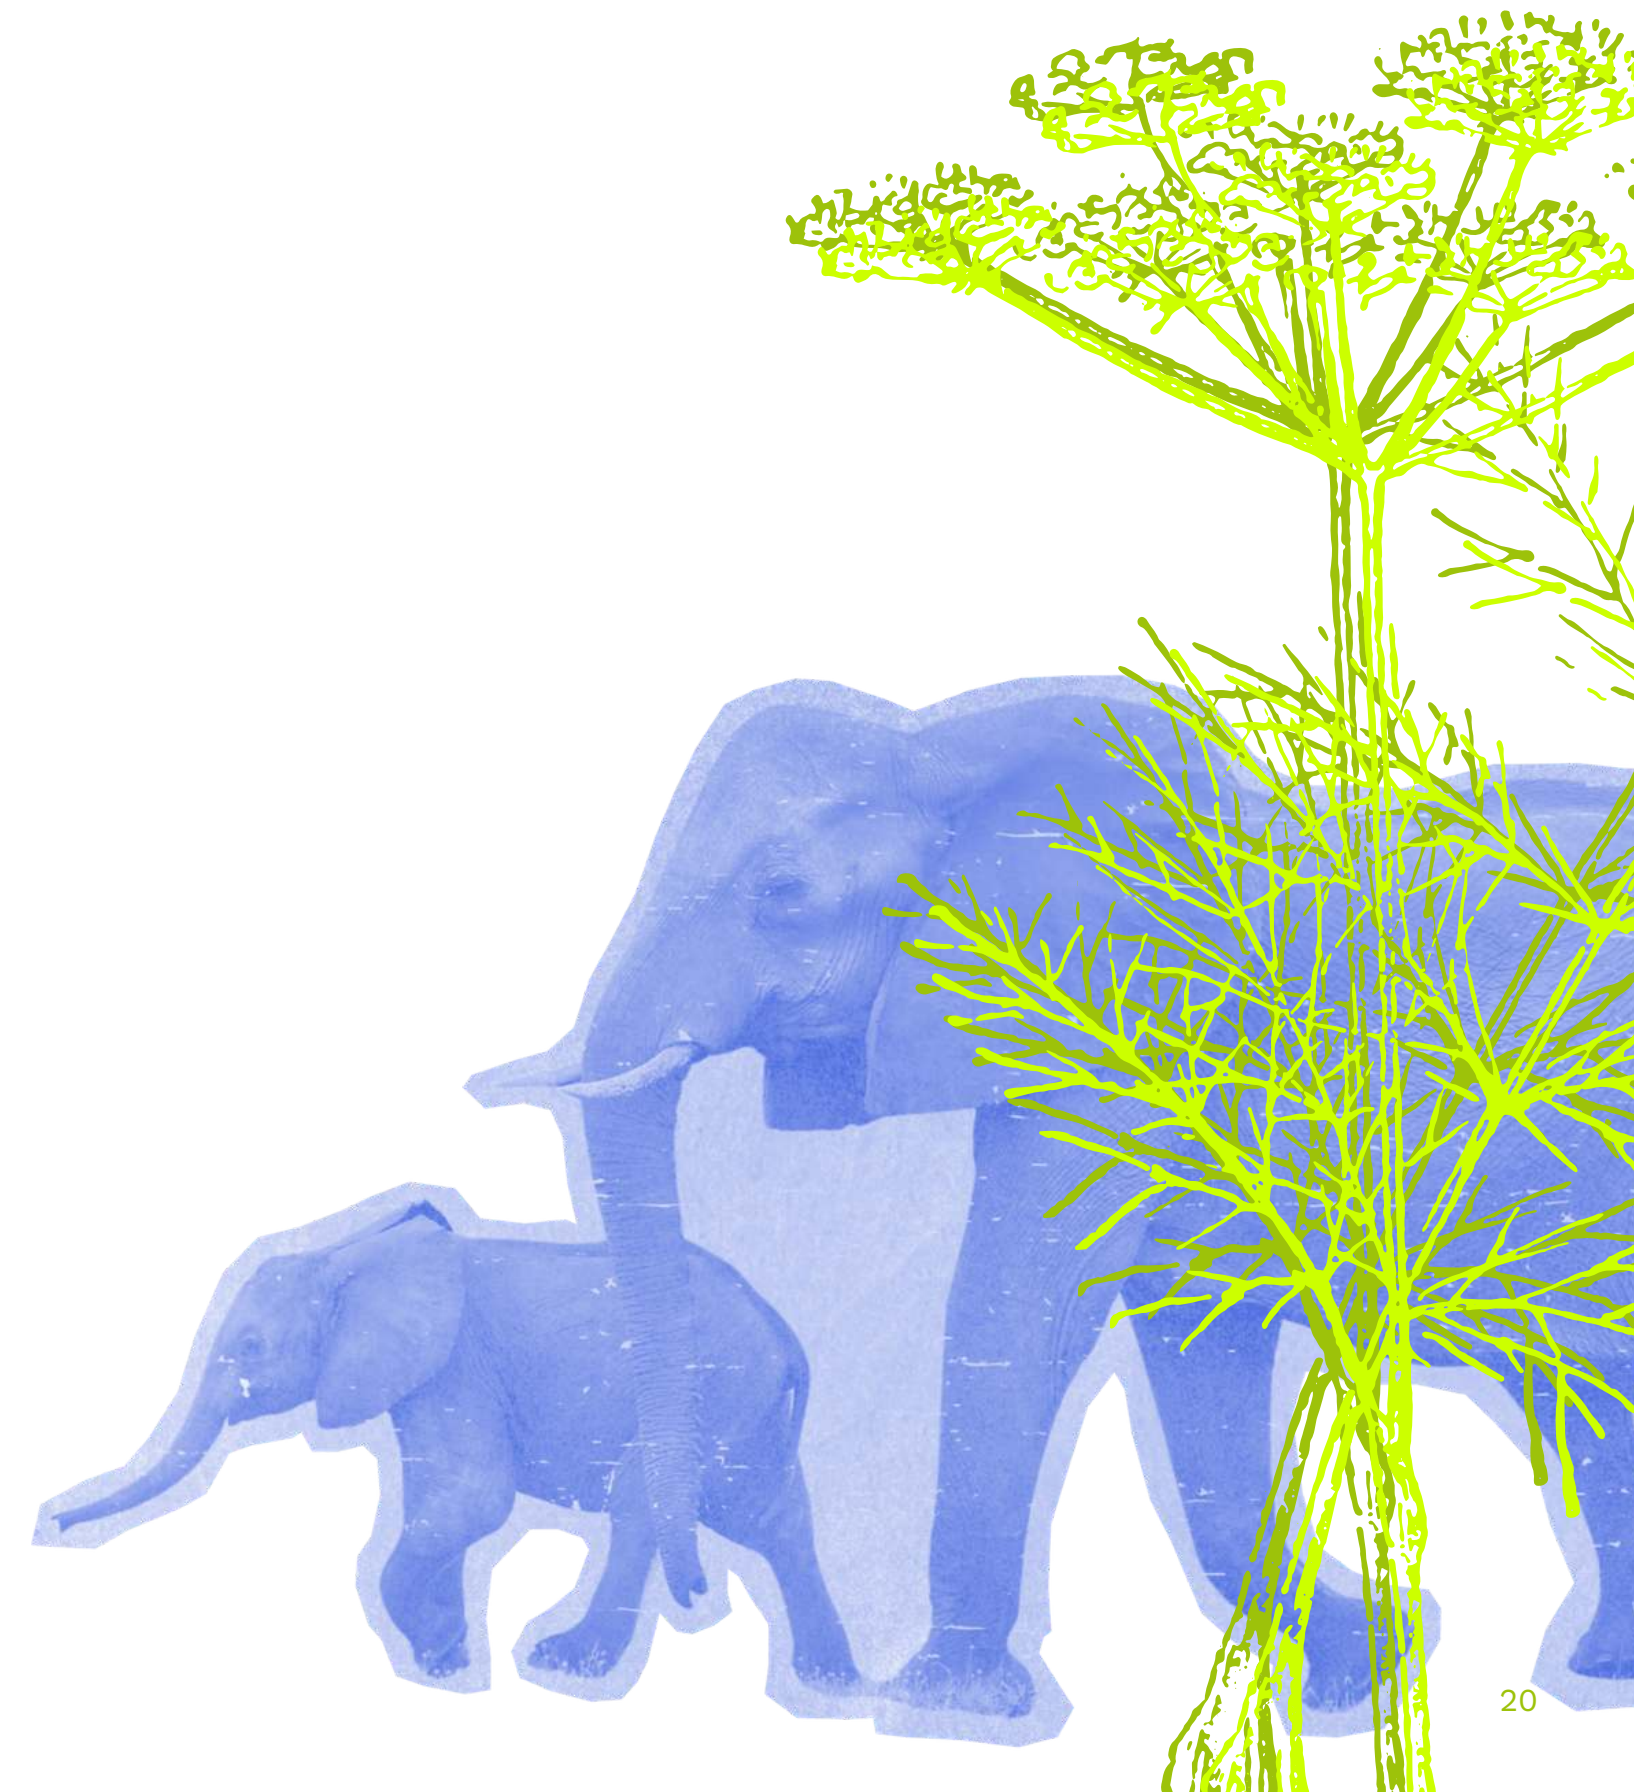

CONNECT WITH A COMMUNITY OF CHANGE-MAKERS

Joining RESET connects you directly with Progressio's trusted "supranetwork" of 50,000 global entrepreneurs, investors, and change-makers built since 1987.

Instead of just gaining access, you will actively interact with these civic leaders. We foster deep, meaningful connections—through mentoring, partnering, and investing specifically curated to help you achieve your goals.

Our Collaboration

Progressio Foundation was founded in 1989 in Rotterdam by Marcello Palazzi (alongside Paul Kloppenborg and Pjotr Hesseling), Progressio is a Dutch nonprofit that finds, connects, and supports entrepreneurs driving human progress.

Over 35 years, it has been at the center of 35+ ventures and 350+ initiatives, engaging 35,000+ global decision-makers. Key focus areas include civic economy, B Corps, regenerative business, and impact investing. Palazzi co-founded B Lab Europe in 2013 and has worked with the UN, Vatican, and world leaders on responsible business agendas.

École des Ponts Business School Founded in 1987 by Célia Russo, the school is the graduate business arm of the prestigious École nationale des ponts et chaussées (est. 1747, part of Institut Polytechnique de Paris).

With a motto of "In business to make a better world," it was the first school in France to offer an English-language MBA. It offers Executive MBA and DBA programs focused on leadership, innovation, and sustainability, with 7,000+ alumni worldwide. Accredited by AMBA and AACSB, it is currently led by Dean Alon Rozen.

Every year, more than 40,000 leaders, entrepreneurs, investors, and changemakers gather at the Grand Palais in Paris for three days of solutions, encounters, and collective energy. ChangeNow is the world's largest summit for positive impact, a place where ideas meet action, and where the people rebuilding the world come together.

We chose to make it part of Leadership: RESET for a reason.

After two days of deep reflection and leadership work, we bring you into that room. Not as a spectator. As someone who has just spent two days questioning everything, and is now standing in the middle of the largest gathering of people trying to fix it.

WHERE THE WORLD COMES TO ACT

Practical info & pricing

Start Program

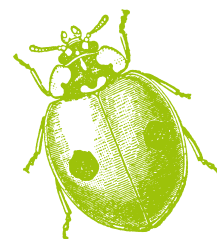

23 April 2027

Application deadline:

15 March 2027

Cohort size

25

Tuition

RESET takes a different approach to pricing, too. The core cost of delivering the program is €8,000 per participant. Beyond this, participants contribute according to their context and capacity

Indicative contribution levels

- Young start-ups & entrepreneurs **€10 500**
- Mid-sized organisations **€12 500**
- Large companies & multinationals **€15 000**

The final fee structure will be determined in February 2027, following an open-budget discussion with participants. Travel and living expenses are not included.

The only leadership program you cannot apply to...

RESET is by nomination only.

If you feel called to this program,
reach out or ask someone who
knows your work to put your name
forward.

WHY DO YOU HAVE TO BE NOMINATED?

BECAUSE...

- A community is only as strong as the people in it.
- Leadership is not only something you claim. It is something others recognise in you.
- The challenges we face need people who are ready to act.
- Sometimes, someone else has to see your potential before you do.
- The change we are reaching for is not small. And neither are the people we are looking for.

and because the time for waiting is over.
